

Dhiaa Mostafa

Senior Backend & Integrations Engineer

Riyadh, Saudi Arabia · 0533166742 · dhiaamostafa46@gmail.com · linkedin.com/in/dhiaamostafa · github.com/dhiaamostafa46

PROFESSIONAL SUMMARY

Senior Backend & Integrations Engineer with 5+ years of experience building scalable APIs, ERP/CRM integrations, and multi-tenant SaaS platforms for the Saudi and Gulf markets. Deep specialization in Laravel and Node.js backend architecture, microservices design, and high-availability system delivery — serving 500+ enterprise clients, managing platforms with 7,000+ active users, achieving 40%+ performance improvements, and maintaining 99%+ uptime across all production environments.

KEY ACHIEVEMENTS

- ▶ **7,000+ active delivery agents** Scaled a multi-tenant SaaS logistics platform to
- ▶ **500+ enterprise clients across Saudi Arabia** Led Evix ERP API integrations for
- ▶ **40%+ via Redis caching, indexing & query optimization** Improved average API response times by
- ▶ **10+ production systems (ERP, CRM, HR, logistics, e-commerce) within 5 years** Delivered
- ▶ **99%+ uptime across all enterprise multi-tenant environments** Maintained

TECHNICAL SKILLS

Backend	PHP, Laravel, Node.js, RESTful APIs, GraphQL, WebSockets, Microservices, API Gateway
Databases	MySQL, PostgreSQL, Redis (caching & queues), Elasticsearch
Cloud & DevOps	AWS (EC2, S3, RDS), Docker, CI/CD (GitHub Actions, GitLab CI), Linux
Architecture	SaaS Multi-Tenancy, Microservices, Clean Architecture, RBAC, ERP & CRM Systems, SDLC
Frontend	JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, HTML/CSS
Mobile	Flutter (cross-platform iOS & Android)
Practices	Agile, Scrum, System Design, Code Review, Performance Optimization
Version Control	Git, GitHub, GitLab

WORK EXPERIENCE

Senior Backend Engineer · Bander Trading Company	Riyadh, SA 2023 – Present
▶ Architected and launched a multi-tenant SaaS logistics platform (Laravel + subdomain architecture), scaling to 7,000+ active delivery agents with real-time WebSocket tracking — designed for zero-downtime under peak load. ▶ Led end-to-end backend API integration of Evix ERP with 500+ enterprise companies via RESTful APIs — ensuring high availability, seamless data synchronization, and strict tenant isolation. ▶ Designed and built a comprehensive HR Management System: automated payroll, attendance tracking, leave management, and configurable policy engine — eliminating manual HR operations. ▶ Optimized backend performance using Redis caching, strategic indexing, and query restructuring — improving average API response times by 40%+ on high-traffic endpoints. ▶ Implemented enterprise-grade authentication with Role-Based Access Control (RBAC) ensuring strict data isolation across all multi-tenant environments. ▶ Established CI/CD pipelines using GitHub Actions and Docker for automated deployments; maintained 99%+ uptime and system stability across all enterprise tenants.	

- ▶ Led ERP & CRM backend development with workflow automation, streamlining cross-team business processes and improving operational efficiency.
- ▶ Developed multi-vertical e-commerce backends with secure payment gateway integration and inventory management (medical lenses, security cameras, charitable organizations).

Backend Developer · [Smart System](#)

Riyadh, SA | 2022 – 2023

- ▶ Developed and enhanced backend services for Restaurant Management Systems and Hotel Reservation Systems — improving operational workflows and booking efficiency via full-stack Laravel solutions.
- ▶ Designed and built API layers for an entrepreneurship platform and multiple corporate websites — managing full SDLC from system design to production deployment.
- ▶ Contributed to backend architecture design, code reviews, and performance optimization across concurrent Agile/Scrum projects.

Freelance Backend Developer · [Self-Employed](#)

Remote | 2021 – 2022

- ▶ Delivered custom backend API integrations and web applications for various clients using Laravel, PHP, and Node.js.
- ▶ Maintained and upgraded legacy codebases — improving security, stability, and overall system performance.

Backend Developer · [SKYSOFT](#)

Sanaa, Yemen | 2020 – 2021

- ▶ Developed RESTful API backends in Laravel/PHP for cross-platform mobile applications: School Management System, E-commerce Platform, and Hotel Booking System.
- ▶ Integrated mobile apps with backend services; maintained high code quality and API performance standards within Agile teams.
