

Dhiaa Mostafa

Senior Full Stack Developer · React.js / TypeScript | Node.js | RESTful APIs & System Integrations | AI-Enabled Applications

Riyadh, Saudi Arabia | 0533166742 | dhiaamostafa46@gmail.com | linkedin.com/in/dhiaamostafa | github.com/dhiaamostafa46

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 5+ years of experience designing and scaling enterprise web applications, B2B SaaS platforms, and complex multi-system integrations using Laravel, Node.js, React.js, and TypeScript. Proven track record architecting RESTful APIs and orchestrating integrations across ERP, CRM, payment gateway, and logistics systems for 500+ enterprise clients — experience directly transferable to the service-orchestration and tool-routing patterns at the core of agentic AI architectures. Strong background in PostgreSQL, Redis, and performance optimization (40%+ API response-time improvements), with end-to-end ownership from React/TypeScript front-ends through backend services, CI/CD, and production deployment. Brings disciplined full-stack engineering practice and a fast-learning track record to teams building Generative AI and agentic application capabilities.

KEY ACHIEVEMENTS

- Architected and delivered 500+ enterprise system integrations (ERP, CRM, payment gateway, logistics) via RESTful APIs — orchestration experience directly applicable to multi-tool, multi-service AI workflows.
- Built and scaled a multi-tenant SaaS e-commerce and logistics platform to 7,000+ active users with real-time WebSocket tracking, achieving zero reported downtime during peak operations.
- Reduced average API response times by 40%+ through Redis caching, strategic PostgreSQL/SQL indexing, and query restructuring on high-traffic applications.
- Delivered 10+ production systems across ERP, CRM, HR, logistics, and e-commerce domains within 5 years, owning architecture through deployment.
- Designed secure, modular RESTful APIs and microservices enforcing strict RBAC and tenant isolation across multi-tenant production environments.

TECHNICAL SKILLS

Front-End: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3, AJAX, jQuery

Back-End & APIs: Node.js, PHP/Laravel, RESTful API Design, GraphQL, WebSockets, Microservices

System Integration & Orchestration: ERP / CRM / Payment Gateway / Logistics API Integrations, Webhook & Event-Driven Architectures, Multi-Service Orchestration

Databases: PostgreSQL, MySQL, Redis (caching & queues), Elasticsearch — schema design, indexing, query optimization

Cloud & DevOps: AWS (EC2, S3, RDS), Docker, CI/CD (GitHub Actions, GitLab CI), Git, Linux

Practices: Agile/Scrum, Code Review, Testing, Performance Optimization, Technical Documentation, SDLC

WORK EXPERIENCE

Senior Full Stack Developer · Bander Trading Company

Riyadh, SA | 2023 – Present

- Designed and built a multi-tenant SaaS e-commerce and logistics platform (Laravel + React.js) scaling to 7,000+ active users with real-time WebSocket-based tracking, engineered for reliability under high-traffic load.
- Architected RESTful APIs and integration services connecting Evix ERP with 500+ enterprise clients, orchestrating data flow across ERP, CRM, payment gateway, and logistics systems while ensuring strict tenant isolation and high availability.

- Built modular, multi-vertical e-commerce platforms with secure payment integration and inventory management across medical, security, and charitable-sector clients.
- Developed a full HR Management System covering automated payroll, attendance tracking, leave management, and configurable policy workflows.
- Improved API response times by 40%+ through Redis caching, PostgreSQL/SQL indexing, and query restructuring on high-traffic services.
- Implemented Role-Based Access Control (RBAC) and enterprise authentication, enforcing strict data isolation across multi-tenant environments.
- Established CI/CD pipelines (GitHub Actions + Docker) for automated testing and deployment, maintaining 99%+ production uptime.

Full Stack Developer · Smart System

Riyadh, SA | 2022 – 2023

- Developed and enhanced Restaurant Management and Hotel Reservation systems using Laravel + React.js, improving operational workflows and booking efficiency.
- Designed and built an entrepreneurship platform and multiple corporate business websites, owning full SDLC from system design to production deployment.
- Built fully responsive front-end interfaces using React.js, Next.js, Tailwind CSS, and Bootstrap, integrated with RESTful back-end APIs.
- Contributed to platform architecture design, code reviews, and performance optimization across concurrent Agile/Scrum projects.

Freelance Full Stack Developer · Self-Employed

Remote | 2021 – 2022

- Delivered custom web applications and third-party API integrations for clients using Laravel, PHP, React.js, and modern JavaScript frameworks.
- Maintained and upgraded legacy codebases, improving security, reliability, and system performance.

Full Stack Developer · SKYSOFT

Sanaa, Yemen | 2020 – 2021

- Developed cross-platform mobile applications using Flutter: School Management System, E-commerce Platform, and Hotel Booking System.
- Integrated mobile applications with RESTful APIs and Laravel/PHP back-end services within Agile teams, maintaining high code quality and responsive UI standards.

EDUCATION

Bachelor of Information Technology — IBB University, Yemen | May 2020

LANGUAGES

Arabic — Native English — Professional Working Proficiency
