

Dhiaa Mostafa

IT Applications Lead Engineer | Senior Full-Stack Software Engineer

Riyadh, Saudi Arabia | +966 533 166 742 | dhiaamostafa46@gmail.com | linkedin.com/in/dhiaamostafa | github.com/dhiaamostafa46

PROFESSIONAL SUMMARY

Senior Full-Stack Software Engineer with 5+ years of experience in IT applications operations, enterprise system integration, and production support for large-scale platforms serving 500+ enterprise clients and 7,000+ active users. Proven expertise in incident management, root-cause analysis, SLA adherence, IT compliance, database design, and performance optimization. Experienced in conducting impact analysis for change requests, preparing KPI-driven performance reports, and implementing proactive/preventive maintenance strategies. Strong background in ERP, CRM, HR, and logistics application domains — well-aligned with ZATCA's IT Applications Operations mandate.

KEY COMPETENCIES

IT Operations Management	Advanced	Incident & Problem Management	Proficient
Database Design & Operations	Proficient	IT Compliance & Security	Proficient
Infrastructure Management	Proficient	Information Systems Knowledge	Proficient
SLA / KPI Monitoring	Proficient	Change Request Impact Analysis	Proficient
Collaboration & Communication	Developing	Enablement of Change & Innovation	Developing

KEY ACHIEVEMENTS

- Managed end-to-end IT application operations for a multi-tenant SaaS platform supporting 7,000+ active users — zero reported downtime during peak operations.
- Led ERP API integration for 500+ enterprise clients with 99%+ uptime, strict SLA adherence, and full incident documentation for future reference.
- Reduced database query response times by 40%+ via Redis caching, strategic indexing, and query restructuring — measurable KPI improvement.
- Built and operated HR Management System covering payroll, attendance, and leave management — eliminating manual HR operations at enterprise scale.
- Established CI/CD pipelines (GitHub Actions + Docker) enabling proactive maintenance and automated deployment with full audit trails.
- Delivered 10+ production systems across ERP, CRM, HR, logistics, and e-commerce within 5 years — covering full SDLC from design to production.

WORK EXPERIENCE

Senior Software Engineer — Bander Trading Company

Riyadh, SA | 2023 – Present

- Operated and maintained a multi-tenant SaaS logistics platform (Laravel) at scale — handled incident prioritization, root-cause analysis, and SLA-compliant resolutions across all tenant environments.
- Led IT application operations for ERP integration with 500+ enterprise clients — monitored application health, managed production outages, and documented all incidents and corrective actions for ITSM knowledge base.
- Conducted proactive and preventive maintenance activities for all IT applications — improved service availability and updated operational documentation after each maintenance cycle.
- Reviewed and performed impact analysis on application change requests — assessed operational risks across all layers (database, API, UI) before implementation.
- Generated periodic KPI performance reports on application operations with root-cause analysis and recommended corrective actions for leadership review.

- Implemented enterprise RBAC authentication systems ensuring IT compliance, strict data isolation, and security standards across multi-tenant environments.
- Optimized database performance (Redis, indexing, query tuning) — achieving 40%+ improvement in API response times with measurable KPI outcomes.
- Established CI/CD pipelines (GitHub Actions + Docker) for automated, zero-downtime deployments — maintaining 99%+ uptime across all production systems.
- Mentored junior team members and escalated complex incidents to relevant stakeholders ensuring proper case resolution and knowledge transfer.

Full-Stack Developer — Smart System

Riyadh, SA | 2022 – 2023

- Developed and enhanced Restaurant Management and Hotel Reservation Systems — handled full SDLC, production deployments, and post-launch operational support.
- Designed and built an entrepreneurship platform and multiple corporate websites — managed all aspects from system design to production monitoring.
- Built responsive UIs (React, Bootstrap, Tailwind CSS) integrated with RESTful back-end APIs — ensured cross-browser compatibility and performance standards.
- Participated in code reviews, performance optimization, and Agile/Scrum delivery cycles within concurrent project teams.

Freelance Software Developer — Self-Employed

Remote | 2021 – 2022

- Delivered custom web applications and API integrations (Laravel, PHP, JavaScript) — maintained and upgraded legacy codebases improving security and system performance.

Full-Stack Developer — SKYSOFT

Sanaa, Yemen | 2020 – 2021

- Developed cross-platform mobile applications (Flutter) — School Management System, E-commerce Platform, and Hotel Booking System — integrated with Laravel/PHP RESTful APIs.

TECHNICAL SKILLS

IT Applications & Operations	Laravel, Node.js, Next.js, RESTful APIs, GraphQL, WebSockets, Microservices, API Gateway
Frontend Development	React.js, TypeScript, JavaScript, jQuery, Bootstrap, Tailwind CSS, HTML/CSS
Database Design & Operations	MySQL, PostgreSQL, Redis (caching & queues), Elasticsearch, query optimization
Cloud & Infrastructure	AWS (EC2, S3, RDS), Docker, Linux server administration
CI/CD & DevOps	GitHub Actions, GitLab CI, automated deployment pipelines, zero-downtime deployments
IT Compliance & Security	RBAC, multi-tenant data isolation, enterprise authentication, SLA/KPI management
Architecture	SaaS Multi-Tenancy, Microservices, Clean Architecture, ERP & CRM Integration
Practices	Incident Management, Root-Cause Analysis, Change Request Impact Analysis, Agile/Scrum
Mobile	Flutter (cross-platform iOS & Android)

EDUCATION & LANGUAGES

Bachelor of Information Technology

IBB University, Yemen May 2020
