PROFESSIONAL SUMMARY

Dedicated and results-driven Junior Full Stack Developer with 2+ years of hands-on commercial experience developing and maintaining robust web applications using C#, ASP.NET Core, .NET Core / .NET Framework, JavaScript (ES6+), and modern front-end frameworks including React. Strong foundation in Object-Oriented Programming (OOP) principles, developing and consuming RESTful Web APIs, asynchronous programming (async/await), Entity Framework Core (EF Core), and Microsoft SQL Server (T-SQL queries, stored procedures, relational schema design). Proficient in crafting responsive, mobile-first user interfaces with HTML5, CSS3, and Bootstrap. Experienced with Git version control, software testing, debugging, and production issue troubleshooting in Agile/Scrum cross-functional team environments. Holds a Bachelor of Information Technology degree, resident in Riyadh, and available immediately for full-time employment.

CORE TECHNICAL SKILLS

- **Backend & .NET Ecosystem:** C#, ASP.NET Core, .NET Core / .NET 8, .NET Framework, Object-Oriented Programming (OOP), SOLID Principles, Dependency Injection (DI), Middleware, Asynchronous Programming (async/await, Tasks), LINQ.
- **RESTful APIs & Integration:** Developing & Consuming RESTful Web APIs, JSON Serialization, HTTP Protocols, Swagger / OpenAPI, API Security, JWT Authentication, Third-Party API Integrations, Payment Gateways.
- **Databases & ORM:** Microsoft SQL Server, T-SQL (Queries, Stored Procedures, Views, Complex Joins), Entity Framework Core (EF Core Code-First / DB-First Migrations, DbContext), Relational Database Design & Normalization, Query Optimization, PostgreSQL.
- **Frontend Engineering & UI:** JavaScript (ES6+), React.js (Hooks, State Management, Component Lifecycle, Axios), HTML5, CSS3, Bootstrap, Responsive Web Design, Single Page Applications (SPA), TypeScript, Angular (Components & Services).
- **Testing, DevOps & Tools:** Git & GitHub Version Control, Visual Studio, VS Code, Postman, Unit Testing (xUnit / NUnit), Software Debugging & Troubleshooting, CI/CD Basics, Docker Basics, Agile / Scrum Methodologies.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Smart System | Dec 2022 – Nov 2023 | Riyadh, Saudi Arabia

- **C# & ASP.NET Core Web Applications:** Developed and maintained modular web application features for ERP, CRM, Restaurant Management (RMS), and Hotel Reservation systems using C#, ASP.NET Core, and React/Bootstrap frontend interfaces.
- **RESTful Web APIs & Asynchronous Processing:** Engineered high-performance RESTful Web APIs using ASP.NET Core Web API, utilizing asynchronous programming (async/await) and Dependency Injection to ensure non-blocking request handling and responsive throughput.
- **Entity Framework Core & SQL Server Integration:** Implemented database integrations using Entity Framework Core (EF Core) with Microsoft SQL Server, writing optimized LINQ queries, executing database migrations, and authoring complex T-SQL queries and stored procedures.
- **Responsive UI with React & Bootstrap:** Created interactive client-side interfaces and dashboards using React, JavaScript (ES6+), HTML5, CSS3, and Bootstrap, ensuring full cross-browser responsiveness and seamless API consumption via Axios.
- **Software Debugging & Issue Resolution:** Utilized Visual Studio debugging tools to identify and resolve runtime errors, performed unit testing, and maintained clean, well-structured code adhering to OOP best practices and SOLID principles.

Full-Stack Software Developer | Bander Trading Company | Dec 2023 – Present | Riyadh, Saudi Arabia

- **Full-Stack Web Development & Maintenance:** Contributed to the development, enhancement, and maintenance of scalable multi-tenant web applications and administrative dashboards using React frontends, robust backend RESTful APIs, and relational databases.
- **API Integration & Enterprise Modules:** Integrated external enterprise services and RESTful APIs, connecting checkout workflows, automated payroll/HR management modules, and third-party gateways with 99.9% uptime.
- **Database Query Tuning & Performance:** Authored and optimized relational SQL queries, indexing strategies, and database operations in SQL Server / PostgreSQL, reducing response latencies and improving overall application throughput.
- **Git Version Control & Agile Collaboration:** Collaborated actively with senior developers and cross-functional teams in Agile/Scrum sprints, utilizing Git for branching, code reviews, pull requests, and automated deployment pipelines in Azure DevOps.

PROFESSIONAL EXPERIENCE (CONTINUED)

- Full-Stack Developer (Hybrid)** | Eyein Information Technology | Dec 2023 – Present | Riyadh, Saudi Arabia
- **Web Applications & RESTful Services:** Built and maintained responsive web applications and backend API services using JavaScript, TypeScript, Node.js, and React for commercial and corporate clients.
 - **Database Design & Security Integration:** Implemented relational and NoSQL database schemas, integrated JWT-based authentication, Role-Based Access Control (RBAC), and secure RESTful API endpoints.
 - **Issue Troubleshooting & Quality Assurance:** Diagnosed and resolved critical frontend and backend application bugs, conducted code troubleshooting, and performed functional testing across multiple release cycles.
- Full-Stack Developer (Contract)** | Musaned United | Feb 2023 – Sep 2023 | Riyadh, Saudi Arabia
- **Full-Stack Architecture & Delivery:** Developed full-stack web application modules connecting responsive React/Next.js client portals with RESTful backend services.
 - **API Documentation & Version Control:** Documented all endpoints using Swagger / OpenAPI for seamless frontend-backend integration and managed source code with Git.
- Web & Software Developer** | Skysoft & Freelance Projects | May 2020 – Nov 2022
- **Full-Stack Web & API Solutions:** Designed and delivered custom web portals and RESTful API integrations across e-commerce and educational platforms, ensuring clean code structure, database normalization, and cross-platform compatibility.
 - **Responsive Design & Frontend Layouts:** Implemented responsive client-side web interfaces using HTML5, CSS3, Bootstrap, and JavaScript, ensuring smooth user experiences across desktop and mobile devices.

KEY FULL-STACK PROJECTS

- **Enterprise ERP & Management System:** Built full-stack business management application using ASP.NET Core, C#, Entity Framework Core, Microsoft SQL Server, React, and Bootstrap. Implemented asynchronous REST APIs, stored procedures, user authentication, and responsive dashboard.
- **Multi-Tenant SaaS Logistics & Dispatch Platform:** Engineered web SaaS platform integrating RESTful APIs, real-time tracking, relational database schemas, and background asynchronous processing with Redis and Git version control workflows.
- **Commercial E-Commerce & POS Integration Platform:** Developed full-stack web solution integrating secure RESTful APIs, payment gateways, product catalog management, and responsive checkout workflows built with React, Bootstrap, and SQL Server.

EDUCATION & CERTIFICATIONS

- Bachelor's Degree in Information Technology (B.IT)** — Ibb University (Graduated May 2020)
- English Language & Professional IT Communication Courses** — Ibb University
- Pro Frontend Engineer (ReactJS, TypeScript, Redux Toolkit) — Udemy Certified
 - Object-Oriented Programming (OOP) & C# / .NET Application Development
 - Database Design & Microsoft SQL Server Query Optimization

LOCATION & LANGUAGES

Location: Riyadh, Saudi Arabia (Resident — Transferable Iqama / Immediate Joiner) **Languages:** Arabic (Native), English (Full Professional Proficiency)
